

For Immediate Release – May 26, 2015
Valuepart Inc. Joins Engine Rebuilders Association

Vernon Hills, IL Today, Valuepart Inc. announced its membership in the Engine Rebuilders Association (AERA). Founded in 1922, the Association has grown to become the premier network for engine rebuilders and technical

professionals. Today, the group represents the interests of over 3,000 businesses serving the automotive, commercial, and industrial engine aftermarket.

Valuepart's membership in AERA comes in addition to existing memberships in other key construction industry associations, including the Association of Equipment Manufacturers (AEM), Association of Equipment Distributors (AED) and the Independent Distributors Association (IDA). The move comes as the company has expanded its wholesale distribution coverage of "VTRACK by Passini" branded aftermarket components used in engine rebuilding activity.

"Industry association membership is an important part of our leadership in the aftermarket construction industry", said Jeff Sydney, Global Repair Parts Leader for Valuepart Inc. "In addition to the affinity we generate from membership engagement, we really value the technical support that arises from the community of like-minded businesses. We look forward to working closely with the association and its members in the coming months."

About ValuePart and ValuePart Inc.:

ValuePart is a leading global manufacturing and wholesale distribution enterprise focused on the supply of aftermarket construction undercarriage components and repair parts. Marketing its products under the "VTrack by Passini" brand, the company maintains manufacturing and supply chain assets on five continents and serves OEMs, dealers, distributors, and end users worldwide. Wholly owned subsidiary ValuePart Inc. serves customers in North, Central, and South America through a network of ten warehousing and administrative offices.
